- Trusted by businesses, ISPs, Web Hosts, and service providers including:
True Value Hardware, Wolfgang Puck Fine Dining and Carlson Companies
- Manages more than **6 billion message connections** per month
- Headquarters in **Sunnyvale, CA**

Integrated Hosted Email Platform

one_business is Everyone.net's hosted service for managing your business's email, calendar, contacts, and files. Designed to maximize productivity, one_business operates in the cloud so your data is accessible anytime and anywhere—from your desktop, web browser or mobile device.

Powerful, Easy-to-Use Business Email

Our award-winning hosted email service was designed with both administrators and end-users in mind.

Admins will appreciate the easy-to-use administrative control panel where all system and user configurations are centrally located. End-users will appreciate the intuitive design of one_business applications, along with their rich features and functionality.

SaaS Delivery

Delivered in a Software-as-a-Service model, one_business operates in the cloud, so there's no hardware to install and maintain. This yields significant cost savings over on-premises solutions while still delivering the rich features and functionality that enterprises demand.

The cloud nature of one_business provides many long-term benefits to your business. Your service is managed by a team of experts whose sole focus is email. Upgrades to the latest hardware and software are automatic and seamless. Services can easily scale as your business grows and you get access to the latest innovations as Everyone.net rolls out new services.

We focus on email so you can focus on your core business.
